👤 PROFILE

Backend Oriented Full Stack Developer | Node.js, React, REST APIs, MySQL

Specializing in scalable REST APIs, authentication systems, and modular backend design.

Built production style full stack applications and backend services using **Node.js, React, and Python** (FastAPI), including **AI integrated systems**.

📁 PROJECTS

Fullstack & Backend Projects

Vacations Are Us - Full Stack Web Application

Live Demo 🔗 | **GitHub** 🔗

Developed a full stack vacation management platform using **Node.js, Express, MySQL, React & TypeScript** with **modular backend architecture** and role based workflows

- Implemented **JWT based RBAC** and **real time synchronization** using **Socket.IO** for admin and client interactions
- **Dockerized** the application and structured backend services (Controllers / Services / DAL) to improve scalability, maintainability, and deployment consistency

AI Gateway API – Multi-Provider AI Platform

GitHub 🔗

- Built a **FastAPI gateway** integrating Gemini, Groq & HuggingFace via a unified, **scalable REST architecture**
- Implemented **provider fallback logic** and in-memory caching, **improving system reliability** and reducing redundant external API requests
- Added request latency tracking and response metadata observability, **enabling performance monitoring and easier debugging** across AI providers

🧠 TECHNICAL SKILLS

Backend

Node.js, Express, Python (FastAPI, Flask), REST APIs, JWT Authentication

Frontend

React, TypeScript, Redux, JavaScript, React Router

Tools

Git, GitHub, Postman, Docker, VS Code

Backend Capabilities

Authentication & Role-Based Authorization, Request Validation (Joi), Real-time updates with Socket.IO, File Upload & Cloud Storage Integration (AWS S3) Linux (Docker based environments)

Databases

MySQL, SQL, Relational Database Design

★ PROFESSIONAL EXPERIENCE

RBS-Telecom, Technical Operations & Supplier Coordination

2010 – 2011

- Managed technical specs and procurement with international vendors
- Managed complex logistical workflows requiring high attention to detail and technical understanding

📖 COURSES & EDUCATION

Full Stack Web Development – John Bryce (710 hours)

05/2025 – 02/2026

Advanced Rabbinical Studies (Kollel)

2012 – 2025

Developed exceptional analytical thinking, deep learning and complex problem solving skills
Completed comprehensive exams toward Rabbinical Ordination (Yoreh Yoreh)

Psychometric Score: [754]

🌐 LANGUAGES

Hebrew — Native/Bilingual

English — Fluent
